Skills

- **Programming Languages** : C, C++, Java, python, php
- **Web Development** : Spring Boot, Rest Api, jpa, react, javascript, css, html,
- **Mobile Application Development** : java, react-native(Basic)
- **Database Management** : mysql, sqlite3, postgresSQL, mongoDB
- **Deployment** : Railway, Vercel
- **Version Control** : Git, GitHub
- **Tools** : postman, Jira, Docker, sts, eclipse, vscode, IntelliJ
- **Other Skills** : Strong Problem-Solving Skills & Programming, Object-Oriented Programming & Design, Data Structures & Algorithms,

Projects

- **SmartComplantBox - complaint module for Any Application** 🐙
Tools and Technology : Reactjs, Springboot, RestApi, jpa, mysql, vercel
Role : Full Stack Developer
Discription : Developed a backend-driven Smart Complaint Box application that replaces traditional manual complaint systems with a secure, data-driven workflow. The application supports complaint submission, officer assignment, status tracking, and historical auditing, ensuring accountability and faster issue resolution.
- **VehicHub – Vehical Rental Management** 🐙
Tools and Technology : Php, Javascript, css, html
Role : web developer
Discription : The Vehicle Rental System is a web-based platform designed to simplify and automate the process of renting vehicles online. The system allows customers to browse, select, and book vehicles such as cars and bikes through an intuitive online interface. It also includes a powerful admin panel that enables administrators to manage all aspects of the system efficiently.
- **Expense Tracker- Full-Stack Web Application** 🐙
Tools and Technology : Spring Boot, React.js, Spring Data JPA, MySQL, JWT, Tailwind CSS
Role : Developer
Discription : Developed and deployed a secure, full-stack application for income and expense tracking, featuring a robust RESTful API architecture. I implemented JWT-based authentication and optimized relational database schemas with a focus on data integrity and transaction management. To improve operational efficiency, I automated daily reporting via scheduled background jobs and successfully managed the end-to-end production deployment.

Certifications / Achievements

- **Introduction to Git and GitHub** 🌐
- **Python web developer** 🌐
- **Published research paper-A Comparative Study of Mental Health Outcomes in Heavy vs. Light Users of Short-Form Video Platforms among Teenagers** 🌐

Education

- **Master of Computer Applications (CGPA – 7.87/10)** 2024–2026
D. Y. Patil Institute of MCA and Management Akurdi.
- **B.Sc. Computer Science (CGPA – 7.59/10)** 2021–2024
Tuljaram Chaturchand College Baramati.
- **12th HSC(82.83)** 2020–2021
Tuljaram Chaturchand College Baramati.
- **10th SSC (75.40)** 2018-2019
New English School Dorlewadi.
